PREFACE

This, another publication in the ever growing lists of information being made available by the Pulaski County Historical Society is dedicated to the sincere and hard working volunteers without whom it would not have been possible.

Copying from the old handwritten records is no easy task. We feel that errors in spelling have been made originally but they have been copied as written as nearly as possible. Also, due to the several stages through which the assimilation of this information must pass before reaching this finished product it is very possible that some errors have been made on our part which have not been detected and for these we apologize, The manuscript was proof read but a few errors have been noted after the book was mimeographed and these have been listed on page B.

In order to keep this volume to a reasonable number of pages we have tried to abbreviate as succinctly as possible yet maintaining a readable form. A list of these abbreviations is given on Page C along with the order in which the information is presented.

We trust this book will be very helpful.
